

Shell and tube heat exchangers leaking, under-performing or not up to code?

As your heat transfer specialists, ***Affiliated Steam & Hot Water*** can offer you quick delivery at competitive pricing on replacement tube bundles, heat exchangers and custom skidded systems. If you want to upgrade code from single to double wall, extend tube life with a higher grade material or improve heat transfer - ***Affiliated Steam can do that!***

New heat exchangers or tube bundles can be sized by:

- * **field measurements for a custom replacement**
- * **specification of performance data for new applications**
- * **direct replacement of an existing part number (Bell & Gossett, Taco etc.)**

...with virtually an unlimited array of construction materials to fit your application:

Copper
Stainless Steel

Steel
CuproNickel

Brass
Inconel

...plus Exotics!

At Affiliated Steam & Hot Water we not only sell products, we sell solution
